

PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals
CAUTION

Harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes or clothing should be avoided. Wash thoroughly with soap and water after using. Avoid contamination of food, utensils, and food preparation areas.

Do not allow children or pets to contact treated areas until thoroughly dry. Do not apply this product in hospital patient rooms while occupied or in any rooms while occupied by the elderly or infirm. Do not apply to classrooms when in use. Do not apply this product to edible crops. Do not use in aircraft cabins.

STATEMENT OF PRACTICAL TREATMENT
If Swallowed: Do not induce vomiting. Call a physician immediately.
If In Eyes: Flush eyes with plenty of water. Call physician if irritation persists.
If Inhaled: Remove victim to fresh air. Apply respiration if indicated.
If On Skin: Remove contaminated clothing and wash affected area thoroughly with soap and water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

Extremely toxic to fish. Do not contaminate water when disposing of equipment washwaters. Remove pets and cover fish tanks before spraying. Do not apply directly to any body of water. Apply this product only as specified on this label.

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not spray directly on plastic, painted, varnished surfaces or into any electronic equipment such as radios, televisions, computers, etc.

DIRECTIONS FOR USE

is a violation of Federal law to use this product in a manner inconsistent with its labeling.

RESIDUAL PEST CONTROL : Homes, laboratories, **NON-FOOD/NON-FEED AREAS**—Restaurants, dairies, milk storage rooms, supermarkets, hospitals (nonoccupied patient areas), nursing homes (nonoccupied patient areas), egg processing plants, bakeries, bottling plants, institutions, hotels, kennels, stables, schools, nurseries, stores, warehouses, food manufacturing, processing and servicing establishments; **Transportation**—Aircraft (cargo area), buses, trucks, trailers, vessels, railcars; **Storage**—Commercial, industrial, apartment, office and storage buildings.

CRACK AND CREVICE APPLICATION: Cockroaches, Spiders, Crickets, Silverfish, Firebrats—Use injector or, releasing approximately 1 second spray per spot. For serious infestations, spray spots approximately 12 inches apart; for light infestations, spray approximately 3 feet apart. Spray into hiding places such as cracks, crevices, openings around pipes and sinks, under refrigerators, behind baseboards, coffee makers, meter boxes, and manholes. Spray directly on insects in these locations where possible. Repeat as necessary.

STORAGE AND HANDLING ESTABLISHMENTS: Places other than private residences in which food is held, processed, prepared or served.

Non-food Areas: This product may be used as a general spot or crack and crevice treatment in non-food areas. All areas where insects hide or through which insects may enter should be treated. Non-food areas are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Food Areas: Do not use in food/feed areas of food/feed handling establishments, restaurants, or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where food may be prepared or held. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

CRAWLING INSECTS: Sowbugs, Pillbugs, Millipedes, and Centipedes—Apply around doors and windows and other places where these pests may be found or where they may enter premises. Spray baseboards, storage areas and other locations. Repeat as necessary. See outdoor use below.

ANTS: Apply to any trails, around doors and windows and other places where ants may be found.

WOOD DESTROYING INSECTS: Treat wood suspected of harboring all species of **Termites, Carpenter Ants and Carpenter Bees.** The purpose of such application of Air Devil Residual is to kill workers or winged form which may be present in the treated channels at the time of treatment and to impact a temporary resistance at these places to attack which may aid in the prevention of immediate reinfestation. Such applications are not a substitute for mechanical alternation, soil treatment or foundation treatment but merely a supplement. Localized treatment of wood-infesting insects—Locate suspected infestation and/or insect tunnels and activities. Inject 5 to 10 seconds of spray into insect tunnels, galleries and inaccessible closed voids. In infested sites, pilot holes should be drilled eight to ten inches apart to insure thorough insecticide gallery treatment. Make sure not to contact electrical wiring, plumbing, etc., when drilling. Use available application equipment. For **Carpenter Bees,** seal entrance openings with small pieces of stainless steel wool after application.

OUTDOORS: For control of Ants, Bees, Centipedes, Cockroaches, Crickets, Firebrats, Millipedes, Silverfish, Sowbugs, Pillbugs, Spiders, Flies, and Wasps—Apply as a residual spray to surfaces of refuse dumps and similar areas where these pests are found.

not for Use in Federally Inspected Meat and Poultry Plants.
 Authorized by USDA for Use in Federally Inspected Meat and Poultry Plants.

STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
STORAGE: Store in a cool, dry area away from heat or open flame.
DISPOSAL: This container may be recycled in the few but growing number of communities where steel aerosol can recycling is available. Before offering for recycling, empty the can by spraying the product according to the label. DO NOT PUNCTURE! If recycling is not available, wrap the container and discard in the trash.

Air-Devil™ HHPX

Residual with Cypermethrin

- Provides Rapid Control of Residential and Industrial Pests
- Quick Knockdown
- Highly Active Solvent System

For Use and Storage by Pest Control Operators Only

KILLS: CRAWLING INSECTS — Cockroaches, Ants, Spiders, Crickets, Silverfish, Sowbugs, Pillbugs, Millipedes, Centipedes, Firebrats, and Earwigs; **WOOD DESTROYING INSECTS —** Carpenter Ants, and Termites

FOR USE IN: Homes, Laboratories, Kennels, Aircraft (cargo area), Buses, Apartments, Offices and the non-food/feed areas of Restaurants, Dairies, Milk Storage Rooms, Supermarkets, Hospitals (non-occupied patient areas), Egg Processing Plants, Bakeries, Bottling Plants, Institutions, Hotels, Motels, Stables, Schools, Nursing Homes (non occupied patient areas), Stores, Warehouses, Nurseries, Food Manufacturing, Processing and Servicing Establishments; Trucks, Trailers, Vessels, Railcars; Commercial, Industrial and Storage Buildings

ACTIVE INGREDIENT:
 *Cypermethrin [(±)2-cyano-(3-phenoxyphenyl) methyl]-(±)-cis, trans-3-(2,2-dichloroethoxy)-2,2-dimethyl-cyclopropanecarboxylate].....0.10%
INERT INGREDIENTS.....99.90%

100.00%

*cis/trans ratio = 45/55 ±10.
 Contains No CFCs or Other Ozone Depleting Substances. Federal Regulations Prohibit CFC Propellants in Aerosols.

KEEP OUT OF REACH OF CHILDREN

CAUTION

See Back Panel for Additional Precautionary Statements.
